Common misconceptions about Payment Protection:

I ALREADY HAVE LIFE INSURANCE—Americans are underinsured. Most experts recommend a policy that **pays 10 times your annual salary.**** Wouldn't you want those proceeds to go to your family and not to pay your debt?

I HAVE DISABILITY COVERAGE THROUGH WORK—Most work plans typically **only cover 60% of your current salary.** Can you live and pay your bills off 60% of what you are making today?

28% OF BENEFICIARIES say their household would face financial hardship within one month should the primary income earner die unexpectedly.*
